Professional Summary

Full Stack Software Engineer with 2+ years of experience building scalable applications using React, Node.js, and Java. Experience in designing RESTful APIs, working with microservices-based architectures, and developing responsive web applications. Strong understanding of system design, backend services, and application performance. Skilled in Agile development, problem-solving, and delivering reliable software solutions in production environments.

Experience

Full Stack Developer Intern **RewardsX** **May 2025 – Aug 2025** (Vancouver, BC)

- Led development of full-stack features using React, Next.js (App Router), Node.js, TypeScript, and MongoDB
- Designed and implemented scalable RESTful APIs and backend services
- Integrated third-party services and APIs to enhance platform functionality
- Improved application performance and responsiveness through optimized components and efficient API handling
- Collaborated on database design and query optimization
- Participated in code reviews, debugging, and production issue resolution
- Worked with Git, Postman, and CI/CD pipelines to streamline development workflows
- Collaborated with cross-functional teams in an Agile/Scrum environment
- Analyzed and resolved complex technical issues, ensuring system stability and reliability
- Delivered feature enhancements aligned with business requirements and user needs
- Contributed to scalable system design and followed structured SDLC practices in a production environment
- Followed structured debugging and testing practices to ensure application reliability and stability

Software Developer **Kashcandi Technology Solutions** **Feb 2022 – August 2023** India

- Developed and maintained responsive web applications using React, JavaScript, Node.js, HTML, and CSS
- Integrated REST APIs and ensured accurate frontend-backend data flow
- Improved frontend performance through component refactoring and optimized state management
- Ensured code quality, testing, and adherence to best practices during development lifecycle

Education

Post Graduate Certificate – Information Technology Solutions **Humber Polytechnic** **Jan 2024 – Aug 2025** Toronto, ON, Canada **GPA: 3.50 / 4.0**

Bachelor of Engineering – Computer Engineering **SVIT (GTU)** **2019 – 2023** Gujarat, India **CGPA: 8.0 / 10**

Skills

Frontend Development:

React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Development:

Node.js, Express.js, Java (Spring Boot – basic), REST APIs, Microservices Architecture, JWT Authentication, FastAPI

Databases:

MongoDB, PostgreSQL, MySQL, Firebase Firestore

Mobile & Cloud:

AWS (EC2, S3 – basic), Firebase, Docker (basic), Vercel, Render

Languages & Tools:

JavaScript, Java, Python (basic), SQL, Git, GitHub, Postman, CI/CD, VS Code

Concepts:

OOP, MVC, Agile/Scrum, Performance Optimization, SEO Best Practices, Responsive Design, RESTful APIs, Authentication & Authorization, SDLC

Projects

EventHub Platform

Next.js, Node.js, MongoDB, JWT

- Built scalable REST APIs using Node.js and implemented JWT authentication and role-based authorization
- Designed event booking system with validation, concurrency handling, and data consistency checks
- Implemented protected routes and optimized API performance
- Integrated image upload and handling for production-ready deployment
- Focused on clean architecture and maintainable code structure
- Integrated third-party APIs (e.g., authentication, media, or external services) to extend functionality
- Deployed applications using platforms like Vercel/Render with environment configuration and monitoring
- Designed modular backend services following microservices-based architecture principles
- Built scalable REST APIs and handled inter-service communication
- GitHub: <https://github.com/HetShah24-06/eventhub>

Health Management System (Desktop Application)

Java, JavaFX, File I/O, MVC Architecture

- Developed a desktop-based healthcare management system using Java and JavaFX
- Implemented patient and appointment management features with CRUD operations
- Designed interactive UI screens including dashboard, login, and management panels
- Applied MVC architecture principles for modular and maintainable code structure
- Implemented data persistence using file handling (binary and text formats)
- Added input validation, error handling, and user feedback using alerts
- Built features for exporting structured data to text files
- Managed application state and UI navigation across multiple screens
- Developed core application logic using Java, strengthening object-oriented programming and backend development skills

Your Own Theater (YOT)

React, Next.js, TypeScript, TMDB API, MongoDB

- Built a responsive movie platform with watchlists, favorites, and ratings
- Implemented SEO-friendly rendering using Next.js features such as server-side rendering and dynamic metadata
- Integrated TMDB API and optimized application performance
- Deployed on Render: <https://yourowntheater.onrender.com/>

Budget Tracking System

Laravel, PHP, MySQL

- Developed an expense management system with authentication and role-based access
- Implemented analytics, filtering, and PDF/CSV export functionality

Certifications

- Microsoft AI Fundamentals — Microsoft & LinkedIn
- JavaScript Essential Training — LinkedIn Learning
- React.js Essential Training — LinkedIn Learning
- Node.js Essential Training — LinkedIn Learning
- TypeScript Essential Training — LinkedIn Learning
- REST APIs & Web Services — LinkedIn Learning
- Git & GitHub for Developers — LinkedIn Learning

Leadership & Volunteer Experience

Peer Mentor

Humber Polytechnic

- Supported new students with academic guidance, campus resources, and transition into college life
- Assisted peers with coursework planning and basic technical problem-solving

Promotion Coordinator

PRAKARSH 2022

- Led and coordinated **10+ promotion teams across multiple districts** to execute college event campaigns
- Planned outreach strategies, tracked engagement, and ensured targets were met within timelines

Promotion Volunteer

PRAKARSH 2021

- Assisted in on-ground and digital promotions for a large-scale college festival
- Engaged with students and coordinated with team leads to increase event participation

Core Member

HACK SVIT 2022

- Contributed to hackathon planning, logistics, and participant coordination
- Supported teams during the event and assisted judges and organizers

Crew Member

MECIA HACK 2023

- Helped manage registrations, technical setup, and event operations
- Collaborated with organizers to ensure smooth execution of hackathon activities
