Professional Summary

Software Engineer with 3+ years of experience building scalable backend systems, RESTful APIs, and microservices. Proficient in **.NET (C#), Node.js, PostgreSQL, Docker, and React**, with hands-on experience in microservices architecture, CI/CD pipelines, OAuth2 authentication, and Agile delivery. Postgraduate Certificate from Humber Polytechnic (Dean's Honours List — all semesters). Open to full-time Software Engineer roles across Canada.

Experience

Full Stack Engineer — Void Enterprise (Remote, GTA — Sept 2025 – Present)

- Designed scalable **RESTful APIs and microservices** using **Node.js and Express** with loose coupling and independent deployability
- Built and maintained **PostgreSQL** databases including schema design, query optimization, and data modeling for production systems
- Implemented **JWT-based OAuth2 authentication** and role-based authorization across microservice boundaries
- Integrated **Next.js** frontend with backend APIs, owning full feature lifecycle from database to UI; documented with **Swagger UI**
- Participated in **Agile/Scrum** ceremonies including sprint planning, code reviews, and end-to-end feature delivery

Full Stack Developer — RewardsX (Remote, Vancouver — May 2025 – Aug 2025)

- Led a team of 3 delivering full-stack features using **React, Next.js, Node.js, TypeScript, MongoDB, and PostgreSQL**
- Designed scalable **RESTful APIs**, third-party integrations, and backend performance optimizations
- Managed **CI/CD pipelines** via GitHub Actions, participating in code reviews and production issue resolution
- Collaborated cross-functionally in **Agile/Scrum**, delivering features aligned with business requirements end-to-end

Software Developer Intern — Void Enterprise (Remote, GTA — July 2024 – Feb 2025)

- Developed backend APIs with **Node.js and Express**, contributed to **microservices architecture** and async communication patterns
- Optimized **PostgreSQL** queries and maintained **Swagger UI** API documentation across the codebase
- Collaborated in sprint-based delivery cycles, shipping backend features for client-facing products end-to-end

Software Developer — Kashcandi Technology Solutions (India — Feb 2022 – Aug 2023)

- Built and maintained full-stack web applications using **React, Node.js, JavaScript, HTML, and CSS**
- Developed and consumed **RESTful APIs**, improved frontend performance through component refactoring and state management optimization
- Ensured code quality, unit testing, and adherence to best practices throughout the full SDLC

Education

Post Graduate Certificate Humber Polytechnic Information Technology Solutions	Toronto, ON Jan 2024 – Aug 2025	GPA: 3.50 / 4.0 Dean's Honours List — All Semesters
Bachelor of Engineering — Computer Engineering	SVIT (GTU) Gujarat, India 2019 – 2023	CGPA: 8.0 / 10

Skills

.NET & Backend: C# (.NET 8), Node.js, Express.js, REST APIs, Microservices Architecture, JWT / OAuth2 / OIDC, Swagger UI, FastAPI, Laravel

Frontend: React, Next.js, TypeScript, JavaScript, Angular (familiar), HTML5, CSS3, Tailwind CSS, Bootstrap

Databases & Messaging: PostgreSQL, MongoDB, MySQL, Firebase Firestore, Redis (basic), Kafka (familiar), RabbitMQ (familiar), MQTT (familiar)

Mobile & Cloud: Android (Kotlin), iOS (SwiftUI), Firebase, AWS (EC2, S3 – basic), Docker, Vercel, Render
Languages: JavaScript, TypeScript, C#, Java (Spring Boot – basic), Python (basic), SQL, PHP
Tools & DevOps: Git, GitHub, Postman, VS Code, Visual Studio, CI/CD, GitHub Actions, GitHub Copilot, Linux
Concepts: OOP, MVC, System Design, Design Patterns, Authentication & Authorization, Agile/Scrum, SDLC, Performance Optimization, Unit Testing, Technical Documentation, Responsive Design

Projects

Cafe Management System — *C# (.NET 8), WinForms, SQL Server, ADO.NET*

- Built a desktop app for cafe operations with menu management, order cart, and receipt printing; implemented **role-based access** (Admin/Guest), parameterized SQL queries preventing SQL injection, and modular UserControl architecture
- github.com/HetShah24-06/cafe-management-dotnet

EventHub Platform — *Next.js, Node.js, MongoDB, JWT / OAuth2*

- Built secure REST APIs with **JWT/OAuth2 auth**, role-based authorization, event booking with capacity validation, image uploads, and production-style error handling

Your Own Theater (YOT) — *React, Next.js, TypeScript, TMDB API, MongoDB*

- Responsive movie platform with watchlists, favorites, and ratings; integrated TMDB API, SEO-optimized with Next.js SSR — yourownteater.onrender.com

Health Management System — *Java, JavaFX, MVC Architecture*

- Desktop healthcare app with patient/appointment management, MVC architecture, data persistence, input validation, and structured data export

Budget Tracking System — *Laravel, PHP, MySQL*

- Expense management system with authentication, role-based access, analytics dashboard, and PDF/CSV export

Favourite Places Tracker — *SwiftUI, Firebase, Google Maps API*

- iOS location-based app with Firebase authentication, Google Maps integration, and map-based UI for saving and exploring favourite places
-

Certifications

- Microsoft AI Fundamentals — Microsoft & LinkedIn
 - JavaScript Essential Training — LinkedIn Learning
 - React.js Essential Training — LinkedIn Learning
 - Node.js Essential Training — LinkedIn Learning
 - TypeScript Essential Training — LinkedIn Learning
 - REST APIs & Web Services — LinkedIn Learning
 - Git & GitHub for Developers — LinkedIn Learning
-

Leadership & Volunteer Experience

Peer Mentor — *Humber Polytechnic*

- Supported new students with academic guidance, campus resources, and transition into college life
- Assisted peers with coursework planning and basic technical problem-solving

Promotion Coordinator — *PRAKARSH 2022*

- Led and coordinated **10+ promotion teams across multiple districts** to execute college event campaigns
- Planned outreach strategies, tracked engagement, and ensured targets were met within timelines

Crew Member — *MECIA HACK 2023*

- Helped manage registrations, technical setup, and event operations for a hackathon
- Collaborated with organizers to ensure smooth execution of activities
